Upcoming Events!

-No School Monday, May 1
(Open Day)

Learning About Plants

Last week, we began learning about plants, plant parts, and the functions of the plant parts. Students also created flower displays and labeled each part.

Comparing and Contrasting

In reading, we have been working on comparing and contrasting. Last week, we compared cookies and cupcakes!

Geometric Shape Museum

This week, we will begin learning about different 2 and 3 dimensional shapes. Students can bring in examples of different shapes from home such as: cylinders, spheres, cones, pyramids, rectangular prisms, and cubes. We will display and label these items in our classroom "Shapes Museum." Please do not send breakable or valuable items.
