Monday, September 26
- Mornings with Mom
Tuesday, September 27
- Daybreak with Dad
Thursday, September 29

Learning New Math Games: 1st Week of School!

Star of the Week!

Each week, one student in our class will be selected as our "Star of the Week!" The Star of the Week will be our line leader and special helper for the week. The Star of the Week will bring home a packet to fill out the Friday before their week, and return to school on the Monday of their special week to be displayed in our classroom. Store-bought treats can also be brought in on Friday.

Star of the Week!

No Star of the Week
on short weeks!
Check back next week!

Discovery Education

This year, you may hear your child come home and talk about Mrs. Bucciero, who will work in our classroom. Mrs. Bucciero is a Discovery Education Specialist who lives in North Carolina, and will be visiting our classroom monthly. My classroom is a Discovery Education Classroom, which is 1 of 5 classrooms at Riverside. Each month Mrs. Bucciero will come in our classroom to help lead or observe my Discovery Learning lessons. These will begin primarily in Science, but can be incorporated in any subject area. The lessons will include technology, collaboration, and problem solving. There will also be multiple training days, where I will have a full day substitute teacher throughout the school year. My first training day absence will be September 27.
